

**Papers making use of Geomagnetic Indices in their Investigations (2003-2008):
*JGR-Space Physics, JGR-Space Weather, Geophys. Research Letters, Ann. Geophys., and J.
Atmos. Solar-Terr. Physics***

[2008](#) , [2007](#) , [2006](#) , [2005](#) , [2004](#) , [2003](#)

List of papers using AE/Dst/SYM/ASY indices (2002-2008) is available at [WDC, Kyoto](#)

2008

Amata, E., G. Pallochia, G. Consolini, M.F. Marcucci, I. Bertello (2008), Comparison between three algorithms for *Dst* predictions over the 2003–2005 period, , *J. Atmos. Solar-Terr. Phys.*, 70, 2-4, 496-502

Anh, V. V., J. M. Yong, and Z. G. Yu (2008), Stochastic modeling of the auroral electrojet index, *J. Geophys. Res.*, 113, A10215, 10.1029/2007JA012851

Balasis, G., I. A. Daglis, C. Papadimitriou, M. Kalimeri, A. Anastasiadis, and K. Eftaxias (2008), Dynamical complexity in *D_{st}* time series using non-extensive Tsallis entropy, *Geophys. Res. Lett.*, 35, L14102, doi:10.1029/2008GL034743.

Demetrescu, C., and V. Dobrica (2008), Signature of Hale and Gleissberg solar cycles in the geomagnetic activity, *J. Geophys. Res.*, 113, A02103, 10.1029/2007JA012570
Kitamura, K., H. Shimazu, S. Fujita, S. Watari, M. Kunitake, H. Shinagawa, and T. Tanaka (2008), Properties of *AE* indices derived from real-time global simulation and their implications for solar wind-magnetosphere coupling, *J. Geophys. Res.*, 113, A03S10, 10.1029/2007JA012514

Lyatsky, W. and G.V. Khazanov (2008), A new polar magnetic index of geomagnetic activity, *Space Weather*, Vol. 6, No. 6, S06002, 10.1029/2007SW000382

Lyatskaya, S., W. Lyatsky, and G. V. Khazanov (2008), Relationship between substorm activity and magnetic disturbances in two polar caps, *Geophys. Res. Lett.*, 35, L20104, doi:10.1029/2008GL035187.

Martini, D., and K. Mursula (2008), Centennial geomagnetic activity studied by a new, reliable long-term index, *J. Atmos. Sol. Terr. Phys.*, 70, 1074– 1087, doi:10.1016/j.jastp.2008.01.008.

Mlynczak, M. G., et al., (2008), Solar-terrestrial coupling evidenced by periodic behavior in geomagnetic indexes and the infrared energy budget of the thermosphere, *Geophys. Res. Lett.*, 35, L05808, doi:10.1029/2007GL032620.

Pérez-Enríquez, R., A. Carrillo, A. Kotsarenko, and J. A. L. Cruz-Abeyro (2008), State of the inner heliosphere as given by the *G* index of interplanetary scintillation and the *Dst* index of geomagnetic activity, *J. Geophys. Res.*, 113, A10107, 10.1029/2007JA012976,

Richardson, I. G., and J. Zhang (2008), Multiple-step geomagnetic storms and their interplanetary drivers, *Geophys. Res. Lett.*, 35, L06S07, doi:10.1029/2007GL032025.

Saiz, E., Cid, C., and Cerrato, Y. (2008), Forecasting intense geomagnetic activity using interplanetary magnetic field data, *Ann. Geophys.*, 26, 3989-3998.

Stauning, P., and O. A. Troshichev (2008), Polar cap convection and PC index during sudden changes in solar wind dynamic pressure, *J. Geophys. Res.*, 113, A08227, 10.1029/2007JA012783

Stauning, P., O. Troshichev, A. Janzhura (2008), The Polar Cap (PC) indices: Relations to solar wind parameters and global magnetic activity, *J. Atmos. Solar-Terr. Phys.*, 70, 18, 2246-2261

Unnikrishnan, K. (2008), Comparison of chaotic aspects of magnetosphere under various physical conditions using AE index time series, *Ann. Geophys.*, 26, 941-953.

Weygand, J. M., and E. Zesta (2008), Comparison of auroral electrojet indices in the Northern and Southern Hemispheres, *J. Geophys. Res.*, 113, A08202, 10.1029/2008JA013055

Weygand, J. M., R.L McPherron, K. Kauristie, H.U. Frey, T.-S. Hsu (2008), Relation of auroral substorm onset to local AL index and dispersionless particle injections 70, 18, 2336-2345.

2007

Burke, W. J., L. C. Gentile, and C. Y. Huang (2007), Penetration electric fields driving main phase *Dst*, *J. Geophys. Res.*, 112, A07208, 10.1029/2006JA012137

D'Amicis, R., R. Bruno, and B. Bavassano (2007), Is geomagnetic activity driven by solar wind turbulence?, *Geophys. Res. Lett.*, 34, L05108, doi:10.1029/2006GL028896.

Huang, C., and J. C. Foster (2007), Correlation of the subauroral polarization streams (SAPS) with the *Dst* index during severe magnetic storms, *J. Geophys. Res.*, 112, A11302, 10.1029/2007JA012584

Janzhura, A., O. Troshichev, and P. Stauning (2007), Unified *PC* indices: Relation to isolated magnetic substorms, *J. Geophys. Res.*, 112, A09207, 10.1029/2006JA012132

Li, X., K. S. Oh, and M. Temerin (2007), Prediction of the *AL* index using solar wind parameters, *J. Geophys. Res.*, 112, A06224, 10.1029/2006JA011918

Love, J. J., K. J. Remick and D. M. Perkins (2007), Statistical modeling of storm level *Kp* occurrences: Solar cycle modulation, *Space Weather*, Vol. 5, No. 12, S12005 10.1029/2006SW000287

Lukianova, R. (2007), Comment on "Unified PCN and PCS indices: Method of calculation, physical sense, and dependence on the IMF azimuthal and northward components" by O. Troshichev, A. Janzhura, and P. Stauning, *J. Geophys. Res.*, 112, A07204, 10.1029/2006JA011950

Lyatsky, W., S. Lyatskaya, and A. Tan (2007), A coupling function for solar wind effect on geomagnetic activity, *Geophys. Res. Lett.*, 34, L02107, doi:10.1029/2006GL027666.

Mays, M. L., W. Horton, J. Kozyra, T. H. Zurbuchen, C. Huang, and E. Spencer (2007), Effect of Interplanetary Shocks on the *AL* and *Dst* Indices, *Geophys. Res. Lett.*, 34, L11104, doi:10.1029/2007GL029844.

Mursula, K., and D. Martini (2007), A new verifiable measure of centennial geomagnetic activity: Modifying the K index method for hourly data, *Geophys. Res. Lett.*, 34, L22107, doi:10.1029/2007GL031123

Petrukovich, A. A. and Zakharov, M. Y. (2007), a_p -index solar wind driving function and its semiannual variations, *Ann. Geophys.*, 25, 1465-1469.

Pulkkinen, T. I., M. Palmroth, and R. L. McPherron (2007), What drives magnetospheric activity under northward IMF conditions?, *Geophys. Res. Lett.*, 34, L18104, doi:10.1029/2007GL030619.

Rich, F. J., J. M. Bono, W. J. Burke, and L. C. Gentile (2007), A space-based proxy for the *Dst* index, *J. Geophys. Res.*, 112, A05211, 10.1029/2005JA011586

Stauning, P., (2007), A new index for the interplanetary merging electric field and geomagnetic activity: Application of the unified polar cap indices, *Space Weather*, Vol. 5, No. 9, S09001 10.1029/2007SW000311

Svalgaard, L., and E. W. Cliver (2007), Interhourly variability index of geomagnetic activity and its use in deriving the long-term variation of solar wind speed, *J. Geophys. Res.*, 112, A10111, doi:10.1029/410 2007JA012437.

Troshichev, O., A. Janzhura, and P. Stauning (2007), Reply to comment by R. Lukianova on "Unified PCN and PCS indices: Method of calculation, physical sense, dependence on the IMF azimuthal and northward components", *J. Geophys. Res.*, 112, A07205, 10.1029/2006JA012029

Troshichev, O. A., A. S. Janzhura, and P. Stauning (2007), Magnetic activity in the polar caps: Relation to sudden changes in the solar wind dynamic pressure, *J. Geophys. Res.*, 112, A11202, 10.1029/2007JA012369

Tsubouchi K., and Y. Omura (2007), Long-term occurrence probabilities of intense geomagnetic storm events, *Space Weather*, Vol. 5, No. 12, S12003, 10.1029/2007SW000329

Wanliss, J. A., and J. M. Weygand (2007), Power law burst lifetime distribution of the SYM-H index, *Geophys. Res. Lett.*, 34, L04107, doi:10.1029/2006GL028235.

Zhu, D., S. A. Billings, M. A. Balikhin, S. Wing, and H. Alleyne (2007), Multi-input data derived D_{st} model, *J. Geophys. Res.*, 112, A06205, 10.1029/2006JA012079

2006

Alves, M. V., E. Echer, and W. D. Gonzalez (2006), Geoeffectiveness of corotating interaction regions as measured by *Dst* index, *J. Geophys. Res.*, 111, A07S05, 10.1029/2005JA011379.

Cosgrove, R. B., and J. P. Thayer (2006), Parametric dependence of electric field variability in the Sondrestrom database: A linear relation with Kp , *J. Geophys. Res.*, 111, A10313, 10.1029/2006JA011658.
