

The Great Lakes Basin Regional Bathymetry Map

Related Products

Larger posters for some of the individual lakes focusing on the bathymetry (without topography) can be ordered online through the following URL.
<http://www.ngdc.noaa.gov/mge/greatlakes/greatlakes.html>
 Grids for Lakes Erie and Ontario with 3 arc second cells can be downloaded through this URL also (with topography).

The poster scales and sizes are as follows:
 Lake Ontario 50"x36" 1:275,000 or 3'x5' 1:250,000
 Lake Erie 26"x50" 1:350,000 or 3'x6' 1:250,000
 Lake Michigan 34"x45" 1:500,000 or 4'x8' 1:250,000

Map Notes

This is a draft of the Great Lakes regional bathymetry map which is still under construction.

Bathymetric contour intervals are in meters below lake level as follows:
 10, 20, 30, 40, 50, 75, 100, 125, 150, 175, 200, 225, 250, 300, 400.

Topographic contour intervals are in meters above sea level as follows:
 200, 300, 400, 500, 600.
