

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry compiled from NOAA hydrographic survey data has a vertical accuracy which complies with International Hydrographic Organization (IHO) S-44 Publication 41 ocean standards in those areas of the data of the survey. This information is not intended for navigational purposes.

Unofficial Transverse Mercator (TM) Zone 18 (1820) Mean Ticks (MT) are shown inside the mapline.

Distance projection survey data, printed in red, compiled by the Minerals Management Service (MMS) was under the auspices of MMS Outer Continental Shelf (OCS) Publication Diagrams. The projections on this map are not for Federal Leasing purposes; for such purposes refer to the OCS OCS Publication Diagrams available from the Minerals Management Service.
