BATHYMETRIC MAP

GULF OF MEXICO
CHANDELEUR VALLEY

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS multibeam survey data (see index) which comply with International Hydrographic Organization (IHO) Special Publication 44 accuracy standards or those used at the time of the survey. As this map is not controlled through Notices to Mariners updates for current and navigation aid information, this product is not intended for navigational purposes. For navigational safety, mariners must use nautical charts.

Offshore geophysical survey data, printed in isogrms, compiled by the Minerals Management Service. Isogrms lines indicate levels of Mean Ocean Currents and Depth Protection Diagrams. The projections on this map are not for Federal Licensing purposes, for such purposes refer to the OCS Official Protection Diagram available from the Minerals Management Service.

Universal Transverse Mercator Projection and Grid Zone 18, 18Q (meters false) (-) projection, north datum.

North American Datum 1983

SEA SURFACE INFORMATION

Parameter	Value
Mean High Water (MHW)	1.14 m
Mean Low Water (MLW)	0.14 m
Mean Lower Low Water (MLLW)	-0.86 m
