# BATHYMETRIC MAP

GULF OF MEXICO  
ATWATER VALLEY

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from 1923 multibeam survey data (see index) which comply with International Hydrographic Organization (IHO) Special Publication 41 assurance standards or those used at the date of the survey. As the map is not registered through NOAA or NOAA's customer for basemap and navigation use information, the product is not intended for navigational purposes. For navigational safety, users must use nautical charts.

Oblique projection survey data, printed or digitally, compiled by the Marine Management Service. Heavy lines indicate lines of 1000 Meter Contour. Shallow Features are shown in green. The projections on the map are not for Federal listing purposes. For such purposes refer to the IHO Official Publication Diagram available from the Marine Management Service.

Universal Transverse Mercator Projection and Grid Zone 18, 18000 Meter Grid (1:250,000 scale shown inside the margin).

North American Datum (NAD 83)

1000 SURVEY INFORMATION

Grid Zone	Grid Easting	Grid Northing	Grid Scale
18	18000	18000	1:250,000
18	18000	18000	1:250,000
18	18000	18000	1:250,000
18	18000	18000	1:250,000
