

Bathymetry compiled by the National Ocean Service (NOS) from Bathymetric Data other than NOS hydrographic surveys. This information is not intended for navigational purposes. Universal Transverse Mercator Grid, Zone 19, 16000 Meter Tick (1-4) are shown inside the outline.

Onshore geophysical survey data, compiled by the Minerals Management Service. Heavy lines indicate limits of MMS Outer Continental Shelf Offshore Fracturing Diagram. The geophysical data are for Federal leasing purposes. For other purposes refer to the OCS Official Fracturing Diagram available from the Minerals Management Service.

ELEVATION OF BATHYMETRIC DATA

Reference elevation is 100 meters above datum. NOS bathymetric data are referenced to Mean Sea Level (MSL) datum. The datum is the average of the low and high tide of the Atlantic Ocean. The datum is not the same as the datum used for the OCS Official Fracturing Diagram available from the Minerals Management Service.
